 Mobile: [+91-8294239455](tel:+91-8294239455)

SKILLS

• Languages:	C++, JavaScript, Java
• Frontend:	React.js, Redux, Tailwind CSS, HTML, CSS
• Backend:	Node.js, Express.js
• Databases:	MongoDB, MySQL
• Tools/Platforms:	Git & GitHub, VS Code, Postman, Vercel, Render
• Soft Skills:	Problem-Solving, Team Collaboration, Time Management, Adaptability

PROJECTS

Edvora - E-Learning Platform GitHub Livelinek	Nov' 2025
- Architected and developed a full-stack EdTech platform that enables instructors to create, manage, and deliver courses with video and real-time progress tracking. - Implemented secure role-based authentication & authorization (JWT, bcrypt) ensuring controlled multi-user access. - Integrated Razorpay payment gateway for seamless and secure course transactions. - Engineered an AI-powered virtual teacher to generate topic-based instructional videos and transcripts, enhancing user engagement. - Optimized REST APIs and database queries, improving performance and scalability to support 1000+ active users Tech Stack: React, Tailwind CSS, Redux, Node.js, Express.js, MongoDB, JWT, bcrypt, Cloudinary, Razorpay, Nodemailer, REST APIs	
Wheel Wings – Next-Gen Travel Booking Platform GitHub Livelinek	Feb' 2025
- Built a full-stack travel booking platform with destination discovery, end-to-end booking workflow, and user review system. - Implemented secure OTP-based authentication and password encryption (bcrypt) to enhance account security. - Developed scalable REST APIs and structured database models to support real-world travel operations with emphasis on performance, reliability, and maintainability. - Enhanced frontend performance with a fully responsive, mobile-first UI, improving accessibility and overall user engagement Tech Stack: React, Vite, Node.js, Express.js, MongoDB, Mongoose, MongoDB Atlas, CSS Modules, Nodemailer, REST APIs, bcrypt	

TRAINING

Mastering Data Structure Algorithm using C++ Certificate	Jun' 2025 – Jul' 2025
- Built optimized C++ solutions for sorting, searching, and graph algorithms to improve runtime. - Used STL to write clean, efficient, and scalable DSA code. - Enhanced problem-solving skills through time complexity analysis and optimization practice. - Strengthened understanding of core data structures by implementing them from scratch.	

CERTIFICATE

• Language Principle & Finite Automata Theory Infosys	Dec' 2025
• Master Generative AI & Generative AI Tools Udemy	Aug' 2025
• Computer Communications Coursera	Nov' 2024
• Bits and Bytes of Computer Networking Coursera	Sep' 2024

ACHIEVEMENTS

Solved 200+ LeetCode Problems Strengthened algorithmic thinking and coding proficiency by consistently tackling challenges across data structures and problem-solving patterns.	Mar' 2026
Event-Lead – HackWithVertos (36-Hour Hackathon) Led the organization of a 36-hour hackathon with 700+ active developers , managing event planning, coordination, and execution while ensuring smooth participant experience and engagement.	Oct' 2024

EDUCATION

Lovely Professional University Bachelor of Technology Computer Science and Engineering; CGPA: 6.97	Phagwara, Punjab, India Aug'2023 – Present
H.D Jain College Intermediate PCM; Percentage: 86%	Arrah, Bihar Apr' 21 – Mar' 23
D.k Carmel High School Matriculation Percentage: 91.6%	Arrah, Bihar Apr' 20 – Mar' 21
